

# Sandwich & Pegwell Bay National Nature Reserve

## Access Restrictions

This Reserve is internationally important for wetland birds, many of which are vulnerable and sensitive to disturbance. To ensure a safe haven for these birds all areas of saltmarsh and mudflats have restricted access.

**Please help us to protect these vital habitats and the wildlife they support by keeping within the hatched zone indicated on the map and walking your dog on a lead here.**

Information on dog-friendly open spaces in Thanet
